# MEDICATION ALERT

## **Cerebral hemorrhage medication, Nimodipine, now OUT OF STOCK**

Nimodipine (marketed as NIMOTOP), a calcium channel blocker used in the treatment of cerebral hemorrhage has just been added to the TGA's Medicines Shortages List with supplies not expected to return to normal in Australia until at least **30 April 2019**.

The current shortage applies to 30mg tablet blister packs of NIMOTOP and the manufacturer, Bayer, say they are working to expedite the next shipment.

If you have customers you believe will be adversely affected by this shortage, there is a solution:

**With a script from their doctor, National Custom Compounding can make up supplies of Nimodipine for your patients.**

As a fully-licensed third party compounding pharmacy, National Custom Compounding safely compounds made-to-order medication on behalf of community pharmacies around the country.

We act as a third party compounder and we partner - not compete - with community pharmacies to deliver a comprehensive range of pharmacy services. You deal with the customer and we'll deliver the goods.

For more information on how we can make up supplies of Nimodipine for your customers, I welcome you to contact me personally on 0416 125 136 or [matt@customcompounding.com.au](mailto:matt@customcompounding.com.au). You may also like to visit our website [www.customcompounding.com.au](http://www.customcompounding.com.au) for more information.

I look forward to hearing from you.

A handwritten signature in dark ink, appearing to read "Matthew Bellgrove", with a long horizontal flourish extending to the right.

**Kind Regards,  
Matthew Bellgrove  
Managing Director & Compounding Pharmacist**
